

# Vacant Stare, Patience

Now fallen to my knees  
Do you want to save me or not  
Sound made it to my head  
Screaming

Nothing else is right to me so maybe  
We will fail to never see  
The future has an end  
And it's forever (and) ever  
With the key to see forever  
With the key to see forever  
It's all-fake then you break, then you'll go

Reform  
Remake  
Have regret  
Recreate

Found fallen to my knees  
Do you want to face me or not  
Bound, captured by my pleads  
I'm begging

Nothing else is right to me so maybe  
We will fail to never see  
The future has an end  
And it's forever (and) ever  
With the key to see forever  
With the key to see forever  
It's all-fake then you'll break, then you'll go

Reform  
Remake  
Have regret  
Recreate

And die create

Now fallen to my knees  
Do I have to plead?  
Do I have to plead?  
Begging on my knees

Is this what you wanted?  
Cause this is what you got  
This is what you wished for  
So die with it

Now fallen to my knees  
Do you have to plead?  
Begging on your knees  
Are you gonna save me?

Forever and ever  
Nothing else is right to me  
Nothing else is right to me

So maybe  
We will fail to see  
We will fail to never see  
The future has an end  
And it's forever (and) ever  
With the key to see forever  
With the key to see forever

It's all-fake then you'll break, then you'll go

Reform  
Remake  
Have regret  
Recreate

With the key to see forever  
With the key to see forever  
It's all-fake then you'll break, then you'll go

Die create  
Now regret  
Die create
