

Valencia, From The Second I Wake Up

Things have been getting kind of heavy these days
Trying to figure out what road to take
There's many decisions to be made
And the only time I feel ok
Is when I'm in your arms
Dana baby girl you've got me missing you all day long
From the second I wake up to the second my day is done
With every breath I take in
Ill swear on every inch of my lungs
I'm with you
Yea I don't know how to say this any other way but
Every little thing is going to be all right
So baby don't you worry
Because I wake up with faith that
Things will be ok
It's just for now we sing
So far away from home
Everything's such a daze
No I don't want to go
It hurts to drive away
Rear view mirror I can see
Break lights hit your face
As your waving me goodbye
One good thing about the road
Is that it opens up your eyes
It will make you miss your home and everything that lies
In your arms will be as clear as North Carolina days
Spent realizing who you are
Don't ever change
Don't ever change
Don't ever change
Don't ever change
