

Valentine, Fight For You

Forget you, forget you, forget you

Do you remember the time we had?
That is just something I cant forget
I always have to think of the love you spread
And I hope that I will get you back
Now I know what Ive got to do...

I have to fight for you
when youre by my side my dreams come true
and I will always love you
I will never, never forget you

Forget you, forget you, forget you

You were the first who taught me to love
and the first who taught me to cry
since you have left me
I lost the stars above
which were symbolizing a "you'l"
Now I know what Ive got to do

Chorus

Fight for you (I will never forget you)...
I will never forget you
