

# Valentine, Where Are You Now

Wonderin' where I've seen your face  
I can't place it  
Knowing the time but not the place  
I'll retrace it  
Trying so hard to find the answers in my mind  
Trying so hard I know it's you that I long to find

You are the one, ooh, I've been waiting for  
The time has come and I can't hold back anymore

Chorus:  
Where are you now, do you still shine  
Or am I just another love you left behind

All of my past just turns to grey  
You know I can feel it  
But if I had you here today  
You know I'd reveal it

'Cause you are the one, ooh, I've been waiting for  
The time has come and I can't hold back anymore

Chorus:  
Where are you now, do you still shine  
Or am I just another love you left behind  
Where are you now, tell me can you feel it  
I still need ya baby, where are you now

The feeling can go away and leave you alone  
Sometimes that feeling gets so strong

(Chorus)
