## Valley's Eve, Unholy Power

He was dying thousands of deaths I am corroded inside by ignorance You show me all the time Blinded by the illusion for never being alone any more The longing will become my grave

Unholy power An evil in your eyes Unholy power Secrets in your mind No mercy in his eyes

Wounds will turn into scars
Which exists a whole life
Do not believe in eternity
It might be your fate
Do not believe in mystery
Cause nothing will last forever
This longing will become my grave

Unholy power An evil in your eyes Unholy power Secrets in your mind No mercy in his eyes
