

VAMERO, Cure For Lonely - x Jost

I'll be your winter
When summer's too bright
My love's like a liquor
In your veins tonight
I'll hold the trigger
To you deep inside
Head first in the river
Till you come alive

Lost in the daylight
I'll take it away
The darkness in your eyes
When you look at me
You ain't gonna hurt
No more no more
You ain't gonna hurt
No more no more

Let me be your
Medicine the cure for lonely
Take away your pain with my touch so holy
I'll make you escape with my body only
So let go let go
You ain't gonna hurt
No more more

One drop of your blood
It all turns to red
I'll be the one drug
That's good for your health

Lost in the daylight
I'll take it away
The darkness in your eyes
When you look at me
You ain't gonna hurt
No more no more
You ain't gonna hurt
No more no more

Let me be your
Medicine the cure for lonely
Take away your pain with my touch so holy
I'll make you escape with my body only
So let go let go
You ain't gonna hurt
No more more

Let me be your
Medicine the cure for lonely
Take away your pain with my touch so holy
I'll make you escape with my body only
So let go let go
You ain't gonna hurt
