

# Vampire Weekend, One (Blake's Got A New Face)

Occident, out on the weekend  
That's the way that we relax  
English breakfast tastes like Darjeeling  
But she's too cute to even ask

Blake's got a new face (Blake's got a new face)  
Blake's got a new face (Blake's got a new face)  
Blake's got a new face (Blake's got a new face)  
Blake's got a new face (Blake's got a new face)

Nastiness will cause your doom  
Turn and walk back to your room

The precedent's already set now  
You spend a week in old San Juan  
Spanish brownstone with chairs of leather  
And Spanish waves to roll along

Blake's got a new face (Blake's got a new face)  
Blake's got a new face (Blake's got a new face)  
Blake's got a new face (Blake's got a new face)  
Blake's got a new face (Blake's got a new face)

Majesty's not overheard  
Cryptographs can't stand the word

Blake's got a new face (Blake's got a new face)  
Blake's got a new face (Blake's got a new face)  
Blake's got a new face (Blake's got a new face)  
Blake's got a new face (Blake's got a new face)

Oh, your collegiate grief  
Has left you dowdy in sweatshirts  
Absolute horror
