

Vampire Weekend, One (Blake's Got A New Face)

Occident, out on the weekend
That's the way that we relax
English breakfast tastes like Darjeeling
But she's too cute to even ask

Blake's got a new face (Blake's got a new face)
Blake's got a new face (Blake's got a new face)
Blake's got a new face (Blake's got a new face)
Blake's got a new face (Blake's got a new face)

Nastiness will cause your doom
Turn and walk back to your room

The precedent's already set now
You spend a week in old San Juan
Spanish brownstone with chairs of leather
And Spanish waves to roll along

Blake's got a new face (Blake's got a new face)
Blake's got a new face (Blake's got a new face)
Blake's got a new face (Blake's got a new face)
Blake's got a new face (Blake's got a new face)

Majesty's not overheard
Cryptographs can't stand the word

Blake's got a new face (Blake's got a new face)
Blake's got a new face (Blake's got a new face)
Blake's got a new face (Blake's got a new face)
Blake's got a new face (Blake's got a new face)

Oh, your collegiate grief
Has left you dowdy in sweatshirts
Absolute horror
