

# Van Halen, Take Me Back (Deja' Vu)

I thought I saw you from a distance  
I swore I'd found you once again  
Touched on that feelin' for an instant  
Could not recall just where or when  
Oh, no  
Some desert island off Morocco  
We had a love so hard to find  
Oh, so full of life, so free and easy  
Another place, another time, oh!

Take me back  
I wanna be there with you  
It happened just like that, yeah!  
Slip in a dream or two  
Come on, take me back  
Oh, deja vu

One soul, one mind  
One light that shines  
One love so fine  
Oh, come on and take me back

Some call it fate, some superstition  
Some call it luck, it's all the same  
Oh, just one of the mysteries of creation  
Somethin' you feel but can't explain, oh!

Take me back  
I wanna be there with you  
It happens just like that, baby  
I've fallen deep into  
Oh!

(Guitar Solo)

Oh girl, do it, come on  
Oh do it, take me there  
Oh, I know, I know, I know, I know, I know, I know

Come on, take me back, baby  
'Cuz I swear I've been there with you  
It happened just like that, wow!  
Send me a dream or two  
Oh, come on, take me back  
Oh, deja vu
