Van Morrison, Benediction

(Mose Allison)

My message this evenin' Is simple indeed Wherever you wander Whatever your breed There's just one thing baby That comes from above When push comes to shove Thank God for self love

Thank Him, Thank Him God for self love Thank Him, Thank Him God for self love When push comes to shove Thank God for self love

When livin' gets heavy And hope starts to fade You just can't continue That old masquerade Remember the power that comes from above When push comes to shove Thank God for self love

Thank Him, Thank Him God for self love Thank Him, Thank Him God for self love When push comes to shove Thank God for self love
