Van Morrison, Cold Wind In August

I waited for you You waited for me That it seemed like, seemed like a mighty long time

Baby I had to have you Oh, I had to have you Come rain, rain or shine

It was a cold wind in August Shivers up and down my spine I was standin' in your garden In the California pine

I was standing shivering I've got the fever in the rain But I can't come on back to see you Again and again and again

I said I, I had to have you Baby I had to have you Come rain, come rain or shine

It was a cold wind in August Shivers up and down my spine And I was standing in your garden

In the California pine California pine

[instrumental]

It was a cold wind in August
Shivers up and down my spine
I was standin' in your garden
In the California pine
In the California pine It was a cold wind in August
I was pushed on through September
Oh pushin' through September
In the rain
Pushin' through, pushin' through September
In the rain

Ooh

It was a cold wind in August Shivers up and down my spine I was standin' standin' in your garden In the California pine
