## Van Morrison, Goldfish Bowl

(Van Morrison)

What will it take for them to leave me alone Don't they know I'm just a guy who sings songs I'm not promoting no hit record And I don't have no TV show And I don't have no reason to live in a goldfish bowl

I'm just doing my gigs
And I'm on and off the road
Everything I say is not meant to be set in stone
Just because they call me a celebrity
That does not make it true
'Cos I don't believe in the myth people
So why should you?

Jazz Blues & Day Funk
That's not Rock & Day Roll
Folk with a beat
And a little bit of Soul
I don't have no hit record
I don't have no TV show
Tell me why should I have to live in this goldfish bowl?

Well there's parasites and psychic vampires Feeding on the public at large Projecting their shadow onto everyone else Well the newspaper barons Are the scum of the lowest degree And they prey on everybody They prey on you and me

I'm singing Jazz Blues & Description of the Saby that's not Rock & Description of the Samp; Roll Folk with a beat And a little bit of Soul I don't have no hit record I don't have no TV show So why should I want to live in this goldfish bowl?
