

Van Morrison, If You Love Me

If you love me
You will give your heart
Why should we be apart
If you love me

If you love me
You will know the truth
I wasn't born to lose
And I love you

Affinity and communication
That makes reality
Understanding is the first thing
It means so much to me

If I love you
I will find the key
If it's meant to be
'Cause I love you

Affinity and communication
That is reality
Understanding is the first thing
It means so much to me

If I love you
I will find the key
If it's meant to be
'Cause I love you
