

# Van Morrison, One More Time

It's been so long  
Since I've seen your smile  
Made me think about  
When you were a child  
It won't be long, I'm comin' home  
Gonna get you in my arms  
And make love to you, darlin', one more time

When I left, you didn't even say good-bye  
And the tears kept rollin' from my eye  
It won't be long, I'm comin' on home  
Gonna get you in my arms  
And make love to you, darlin', just one more time  
Umm-mm

Yes, it won't be long, I'm comin' on home  
Gonna get you in my arms  
And make love to you, darlin', just one more time

Well they say, in this here world  
There's a girl for ev'ry boy  
You're the one, you're the one  
That's brought me so much joy

It won't be long, I'm comin' on home  
Gonna get you in my arms  
And make love to you, darlin', just one more time  
Yeah, one more time  
One more time  
Just, one more time
