

# Van Morrison, You Can Count On Me To Do My Part

(Mose Allison)

Let's talk it over, let's get it straight  
Don't let th' situation escalate  
You know there's always problems when a man is wrapped up in his art  
But don't you worry baby you can count on me to do my part

You keep on working, I'm looking round  
Don't let your girlfriend put me down  
You know it's tough these days for a proud man to make a start  
But don't you worry baby you can count on me to do my part

You wash the dishes, I've gotta run  
You know that night life ain't such fun  
Now don't wait up for me 'cause I know you need your rest, sweetheart
