

Van She, Kelly

Kelly was a young girl, looking in the mirror, doing what young kids do
Watching out the window, thinking of all the things, she should do
She's running all the time, she's running blind
It's raining all the time, the clock hits nine, then she met me

Oh Kelly, do what you need and come home
Oh Kelly, you know I see you running

She's sitting back, no ??, thinking of me and you
Listening to the player, missing out all the Prince and things she knew
She's running out of time, she's running blind.
It's raining all the time, the clock hit nine, when she met me.

(X4)
Oh Kelly, do what you need and come home
Oh Kelly, you know I see you running
Oh Kelly, do what you need and come home
Oh Kelly, you know I see you running
