

Vance Joy, Every Side Of You

Yeah I wanna be on your mind
When the stars ignite when the summer night unfolds
Yeah I wanna take a picture now
When the lights go down and our senses all take hold**
Thought I was a certain kind of guy, strong and silent type
But you got me talking now, Yeah its in the way you look at me I can see that you feel everything I

And It's no surprise
When you're this close
Every touch is amplified
I don't know when we'll be here again
So I memorise
Every inch of your body
Show me every side of you

Yeah I don't know what tomorrow knows
Where these feelings go
But I plan on being round
Time is nothing when you look at me
Can't you see this thing's meant to go on way past right now

And It's no surprise
When you're this close
Every touch is amplified
I don't know when we'll be here again
So I memorise
Every inch of your body
Show me every side of you
Show me every side of you

Every shape and every colour that I found
I can hardly see a world without you now
Oooo Oooo Oooo Oooo
Oooo Oooo Oooo Oooo

And It's no surprise
When you're this close
Every touch is amplified
I don't know when we'll be here again
So I memorise
Every inch of your body
Show me every side of you
Show me every side of you
Show me every side of you
