

Vandavanda, Falling In Love

Don't be afraid of the dark, think of what I told you
I'll be there to love you
I'll be there to hold you

Don't be afraid when you're feeling lost and lonely
I'll be there beside you
Girl, you are the only one for me

I'll make you feel good
Whenever you need a friend
I'll be there to comfort you
If you tell me what you need
Everything is gonna be alright

Every story with a happy end
Starts at the beginning
Come one, baby, take a chance on me

I'm falling in love
For the first time, and the last time
You are always on my mind
I'm falling in love
For the first time in my life

I'm falling in love
For the first time, and the last time
I just gotta make you mine
I'm falling in love
For the first time in my life

Love is the flame that can light up a thousand fires
Love is no illusion
Triggered by desire

I love you more and more every time my heart beats
There'll be no confusion
You are everything I'll ever need

I'll make you feel good
Whenever you need a friend
I'll be there to comfort you
When you need a little t.l.c.
That is what you'll get from me

Every story with a happy end
Starts at the beginning
Come one, baby, try your hand at me

Chorus
