

Vandenberg, Hit The Ground Running

Well, I've missed those city lights
All the strangers howling in the lonely nights
We welcomed any vice
It took a life of pain to finally realize

You're out of luck
And out of love
You got a chance
So steal it if you want it

Are you ready
Just one way to go

I'm gonna hit the ground running
Like a full blown maniac, I'm taking no lip
Hit the ground running
Got a battle to fight, on and on it goes
Got no time to kill
Gonna hit the ground running

You know there ain't no wrong or right
I keep the fire burning, stacking dynamite
All I got was a bag of lies
There is a price to pay and I'm the perfect crime

I was out of luck
And out of love
I faced the bill
That came without a warning

Yea I'm ready
All set to go!

Hit the ground running
Speed like a full-blown maniac, I'm taking no lip
Hit the ground running
I got battles to fight, got no time to kill

Hit the ground running
My adrenaline's pumping
Now I'm at it again
And I'm never going down...

Got no time to kill!

Yea, I've missed those city lights
Always chasing shadows, lived a thousand lives
I tried out every vice
I'd do it all again, it taught me to survive

Out of luck
And out of love
I took a chance
And stole it cause I wanted it

Rough and ready
Can't stop me now

Gotta hit the ground running
Like a full-blown maniac, I'm taking no lip
Hit the ground running
Got a battle to fight and no time to kill

Hit the ground running

My adrenaline's pumping
Now I'm at it again
See me now coming
I'm gonna hit the ground running
