

Vanessa Amorosi, I Wanna Be Your Everything

Oh yeah...oh yeah
I don't know you
Not at all
I took one look at you
And I want to know it all
What you do
Where you go
Am I on your mind or is there someone else
Are you calm
Do you care if it's there
Or is there something wrong with your health
Ask me some questions I know your shy
And that's what makes me think
You're my type of guy

Bridge:
Just talk to me
Just that extra little bit longer
Yeah yeah yeah
And if it don't kill you
I know it can make you stronger
Yeah yeah yeah

Talking: I know you're shy
And I wish you were my guy

Chorus:
I wanna be the one now darlin'
So let's get it on well let's start something
I wanna be I wanna be
I wanna be your everything

All of this time
I've been sitting back
Looking at you baby
To see what's in your head
And I don't know you or what's inside
But I know yes I know
That you're my type of guy

Repeat bridge
Repeat chorus

I wanna be yor everything
I just wanna be your everything
