

# Vanessa Carlton, Operator

I could be your operator  
I could bring you joy  
Something like a freedom fighter  
Guns ain't just for boys

I heard what you said  
You should say it again, cause its bold  
Its getting late  
Darling get a move on it, we should go

You should never tell your mother  
You should give it time  
Pour a drink, here, have another  
Cause this is gonna blow your mind

Heard what you said  
And I say what i mean  
We should go  
Pack up your things  
I don't care what you bring  
Leave your house for a home

You should call your little brother  
Tell him to be good  
Tell him that you really love him  
You don't...but you should

Heard what you said, so don't say it again  
Cause it's cold  
It's getting late, we should get a move on it  
We should go  
Go

I could be your moneymaker  
You could be my song  
Worry bout the others later  
We should get a move on  
We should go  
Pack up your things I don't care what you bring  
Leave your house for a home
