

Vanessa Hudgens, Too Emotional

I thought I had control
But I slipped, and I don't, and I don't know where to go
I thought I knew it all
But all I do is think about the next time I see you
I thought I had control
But we kissed, and I slipped and I don't know where to go
All I really know;
It's getting too emotional

When you came to me
Yeah, I thought you'd be like every other guy that I'd ever met
We'd hang for a while then I'd soon forget you
But this is something new
I was not prepared to wonder where you are when you're not with me
This feels so crazy

I thought I had control
But I slipped, and I don't, and I don't know where to go
I thought I knew it all (knew it all)
But all I do is think about the next time I see you
I thought I had control
But we kissed, and I slipped and I don't know where to go
All I really know;
It's getting too emotional

It's a strange feeling
To care about someone, I guess I never really did til I met you, boy
How was I to know how you would affect me?
They say I talk too much
I talk too much about you
The definition of being out of control and I don't wanna feel this anymore

I thought I had control (I think)
But I slipped, and I don't, and I don't know where to go
I thought I knew it all (knew it all)
But all I do is think about the next time I see you
I thought I had control
But we kissed (kissed), and I slipped (slipped) and I don't know where to go
All I really know;
It's getting too emotional

I get this feelin' inside my heart when
You come around, and when we're apart then
I feel so torn up inside
I've gotta get control of my life

I thought I had control (I think)
But I slipped, and I don't, and I don't know where to go
I thought I knew it all (knew it all)
But all I do is think about the next time I see you
I thought I had control
But we kissed (kissed), and I slipped (slipped) and I don't know where to go
All I really know;
It's getting too emotional

(Before I came, along...)
