## Vanessa Paradis, Lonely Rainbows

Tonight I'm yours And you are mine I know a place where we can hide I know a place Where we can finally see the rainbow And we can fly fly fly fly fly I know a place Over the lonely rainbow Where we can make things right I know a place where we can Always be together And we can go tonight I know a place where we can live our lives And I know a place Where we can see the light I know a place Over the lonely lonely rainbow Where we can make things right Over the lonely lonely lonely lonely Rainbow.
