

# Vanessa Williams, Freedom Dance (Get Free)

When it's time to get up you're gonna know it  
You gonna get a feeling inside, you gotta show it  
Come on relax and put your mind at ease  
And forget all your insecurities

You gotta move, nothing can hold you down  
And let nothing turn your move around  
Just start counting up 1 - 2 - 3  
Come on people just get free

Get free  
In the midst of trouble love  
Get free  
Gotta find you another one  
There's a chance if you open up  
Get free

Freedom dance if you open up  
Freedom - come on people just

You've been holding back too long  
Now the feeling is much too strong  
Take a look at your other side of your heart  
And begin to tear the rules apart  
No your momma can't help you now  
And your daddy can't show you how  
And if you need it here's a little help

Get free  
In the midst of trouble love  
Get free  
Gotta find you another one  
Get up - come on people just get free  
There's a chance if you open up  
Get free

Freedom dance if you open up  
Freedom - come on people just

People listen to me  
You don't have worry - now, now  
Just get up when you're down  
And the whole world around  
Will be a better place for me and you - oh  
We got to tell one another  
Tell your sister and your brother that  
If the world isn't as free like the world ought to be  
That the world would be sight to see
