

# Vanessa Williams, I See A Kingdom

Listen up 'cause this is all I have to say  
This could be the thing to get you on your way  
Just imagine what is old and new again  
Maybe then you'll understand

I tell you  
Take a look around and tell me that you don't see  
Just a worthless pile of garbage and debris

I see a kingdom - Shining bright  
I can see the colors coming through, yeah  
You'll find the beauty, if you look at something right  
It's all about your point of view  
And life is all about your point of view

Everywhere you look a story can be told  
And the tales they tell are worth their weight in gold  
In a place that's filled with mountains made of trash  
Rotting castaways and broken bits of glass

I dare you  
Take a look around and tell me that you don't see  
Just a worthless pile of garbage and debris

Cause I see a kingdom - Shining bright  
And if you try then you can see it too, yeah  
You'll see the beauty, if you look at something right  
It's all about your point of view  
And life is all about your point of view

I see a kingdom - Shining bright  
I can see the colors coming through  
You'll find the beauty, if you look at something right  
It's all about your point of view  
And life is all about your point of view

Your point of view  
Your point of view
