If you're really trying girl
To give just what you have
You've got that certain kind of man
Who really need maat
So tell him what you do for him
Then show him what you've got

Don't you know that love is watching you
So speak with your heart
That's the kind of love that guys who though
(catch you through)
And you know just what to do so

[Chorus:]
If you really love him
Then make all way
To show him what you really feel

If you really need him

Watch you let him know your love is for real

Deep with in your soul
The things you wanna do for him
