

Vanilla Sky, Nightmare

What am I doing here?
What happened before?
Did I mess up?
Someone is calling me
Someone is whispering
Daniel wake up

And it makes me feel bad
When I find that you're not here
And it makes me so scared
When I find that I'm alone

I can't remember
I was holding your hand tight
Lost in that light
Suddenly I'm here
Darkness around me
Should I wake up

And it makes me feel bad
When I find that you're not here
And it makes me so scared
When I find that I'm alone

Please save me

I can't remember
what happened before
Should I wake up and call your name loud and on?

And it makes me feel bad
When I find that you're not here
And it makes me so scared
When I find that I'm alone
