

Vanilla Sky, Suddenly

I'm sorry for running away from you
I'm sorry for not being enough for you.
I love the way you hold my hands
I miss all my time with you

You and I
we used to spend our days in music shops
but sometimes
I read on your face there was something wrong
Everytime
I felt Its just like the first time
but I know everything will work out fine.

How many nights I spent alone
and How many songs did I write for you
You swear to me I was the one
do you still remember that

You and I
we used to spend our nights to sing our song
but sometimes
I read on your face there was something wrong
Everytime
I felt Its just like the first day
but I know everything will work out fine.

and now these days are gone forever
do you remember what we were

we used to have fun and hang all around.
i can't believe what you're telling me now
you say you love me. i can't make it out
where is the friendship we long talked
