

Vanilla Sky, Welcome Back

No matter how I ever try
As long as I know that I'm right
I'm sure they felt the same
What if we stop chasing this dream
Give up to join this endless game
Now and forever
Welcome back California Dreamin'
Please shine on me another minute today
Is the day that I could die
Get up it's morning let's go to work
Performing this ancient ritual
This tradition still goes on
Just to weeks to turn your minds off
And to believe you're the only one
Who's gonna live forever
Welcome back California Dreamin'
Please shine on me another minute today
Is the day that I could die
Welcome back California Dreamin'
Please shine on me another minute today
Is the day that I could die
My friends they've all got a degree
To live the way they used to hate
Gotta be a man just like me
They now say
Welcome back California Dreamin'
Please shine on me another minute today
Is the day that I could die
Welcome back California Dreamin'
Please shine on me another minute today
Is the day that I could die
