

# Vanished, Anesthesia Winter

Do you need some anesthesia just to make it this time  
Or would it now only please you if I stepped out of line  
Oh I got a habit of falling back to the bottom again  
Yeah I got a habit of falling back to the bottom again

(Chorus)

Say to me what you hate to say  
Before you push me away, before you push me away  
Oh say to me what you hate to say  
Before you push me away, before you push me...

So what are you so afraid of, is it to feel alive  
Have you lost your lucky clover, did it work this time  
Oh, oh I got a habit of falling back to the bottom again  
Yeah I got a habit of falling back to the bottom again

(Chorus)

Well I can learn to love you just like you learned to hate me  
And I can say all the things that you want me to say  
You're like a razor blade with all the cuts that you make  
So don't push me away, yeah don't push me away

(Chorus x2)
