

# Vanished, Favorite Scar

Remember when we said we'd never part  
No purple tears and break each other's heart  
Now I'm the fool for trusting this far  
'Cause now you are my favorite scar

So tick tock 'bout time for the pain come in  
When you said we'd all be friends in the end  
I hope you'll find what you need  
'Cause I won't be those things in your magazine

(Pre-Chorus)

Oh, oh, oh, you were my star now  
Oh, oh, oh, you're my favorite scar

(Chorus x2)

So wake me when it's over  
And tell me when the feeling's gone

I always knew that you'd be my favorite scar

Your burn is slow but it burns me to the bone  
I'm comatose then I start to walk alone  
I hope you'll find what you need  
But can I have my heart back 'cause it's starting to bleed

(Pre-Chorus + Chorus (x2))

I miss the way that you smiled  
I hate it when you cried  
When we said goodbye

Yeah, that's what you are, you are my favorite scar

(Chorus x2)
