

# Vanishing Point, Handful of Hope

Another day, another game  
Another cure for the pain  
Another hollow era, hopeless drowning deep insane  
Still I dream with a handful of hope

Another war, another lie, another year to live or to die  
Another passing moment flickers to the calm or storm  
Still I dream with a hand full of hope

How can we break the silence?  
Blinded we are but shadows  
How can we seize the day?  
We stand on the edge

Another crash, another burn  
Another way to live or learn  
Another fight without a reason, all we do is sigh  
Still I dream with a hand full of hope

How can we break the silence?  
Blinded we are but shadows  
How can we seize the day?  
We stand on the  
Edge of life we fall  
Into the darkness  
Stand alone, reach out  
Can we hold much longer?
