

# VanVelzen, Unwind

Out of the dark sky  
Out of the solitary blue  
Out of a cold night  
Out of a room without a view

How could I find you  
How could you break on through to me  
I must have been blinded  
By a light, I did not see

Chorus:  
I'm in love  
I'm in wonderful love  
I'm in deep this time  
All heart, no mind  
I'm in love  
I can feel my life unwind

One in a million  
One of the lucky chosen few  
Could have be different  
Could have been me here without you

What are the chances  
What are the miracles to trust  
What are the forces  
To turn an ego into us

Chorus

Unwind into something new  
Unwind into something true  
I see a million different colours  
With each and every step I take  
I find myself, now I'm falling into you

Chorus

I'm in love  
I can feel my \*life\* unwind
