

# Varsity Fancub, Ghost

All the memories in pieces scattered on the floor  
Had an argument that ended bad once more  
All the misery and crying, I'm sick of trying  
(To make you happy)  
I don't wanna be why you leave  
I just wanna be what you need  
And I wanna see what you see  
Since you walked away from this here  
See I got nowhere to go and I just can't be alone  
(This is my last chance)  
'Cause I can't see baby down with someone else  
(This is my last chance)  
Every time I hurt you, I was hurting myself  
Every time I hit it, hit it  
You would always quit it, quit it  
Got nothing left of my heart  
Just a ghost in me  
I don't recognize these feelings anymore  
What happened to the future that was in store  
I'm all hung up on lying, I'm sick of fighting  
(I'll make you happy)  
I don't wanna be why you leave  
I just wanna be what you need  
And I wanna see what you see  
Why'd you walk away from this here  
I got nowhere to go and I just can't be alone  
(This is my last chance)  
'Cause I can't see baby down with someone else  
(This is my last chance)  
Every time I hurt you, I was hurting myself  
Every time I hit it, hit it  
You would always quit it, quit it  
Got nothing left of my heart  
Just a ghost in me  
(This is my last chance)  
'Cause I can't see baby down with someone else  
(This is my last chance)  
Every time I hurt you, I was hurting myself  
Every time I hit it, hit it  
You would always quit it, quit it  
Got nothing left of my heart  
Just a ghost in me  
I went and let my girl down  
(And I'm so, so sorry)  
You caught me on the rebound  
(Baby)  
It's my time to be real  
To you  
(To you, to you)  
There's a ghost inside of me  
(This is my last chance)  
'Cause I can't see baby down with someone else  
(This is my last chance)  
Every time I hurt you, I was hurting myself  
Every time I hit it, hit it  
You would always quit it, quit it  
Got nothing left of my heart  
Just a ghost in me  
(This is my last chance)  
'Cause I can't see baby down with someone else  
(This is my last chance)  
Every time I hurt you, I was hurting myself  
Every time I hit it, hit it  
You would always quit it, quit it

Got nothing left of my heart  
Just a ghost in me
