

# Varsity Fanclub, Zero

With one

Peace stone

You ain't going nowhere as long as he is the driver

You can ride with him, but it will never be the same, same, same

One look at him tells me you want to be taken higher

See the problem is you wish he could make you feel the way I do

[Chorus:]

Why waste time when you know I got it?

Come on baby you know you want it

You know it's possible to get what you're looking for

Float him, he can do it

Like me, I'm gon' prove it

I got a question can you help me out?

How many people can do it like me?

Zero

Keep it so cool like me?

Zero

Girl you know their ain't nobody, nobody

Else that can make it so hot like me

Zero

Take it to the top like me

Zero

Girl you know their ain't nobody, nobody

Zero

It ain't a good look, you got me in your caller

You can rock him, but he'll never feel my space, space, space

One look at him, tells me he's not the right one for you

I don't understand why you settle beneath for second place

[Chorus:]

Why waste time when you know I got it?

Come on baby you know you want it

Zero

There is only one girl that can make you feel right

That's mean for something dying

So don't even try to make it work

Wait until you know I'm the original, nal, nal, nal, nal, nal, nal

How many people can do it like me?

Zero

Keep it so cool like me?

Zero

Girl you know their ain't nobody, nobody

There ain't nobody, yeahh

Else that can make it so hot like me

Zero

Take it to the top like me

Zero

Girl you know their ain't nobody, nobody

Ohhhh

How many people can do it like me?
