

# VAST, Lost

There's no angels here  
Just a sun to light the way  
To places where my friends  
Turn to strangers

Oh my lover on a long long empty road  
Oh sweet lover I got lost

There's no angels here  
Just a light to lead the way  
There's no innocence  
Only strangers

Oh my lover on a long long empty road  
Oh sweet lover I got lost

And I  
I need to get back home

Oh my lover on a long long empty road  
Oh sweet lover I got lost

And I  
I need to get back home
