

# Vaughan Penn, Almost Perfect

There's a reason for the situation  
It's amazing, the shocking revelation  
Love is crazy, it's got me upside down  
It's got me upside down

Well life hits you and love gets you  
You just gotta go with the flow

Everything is almost perfect here  
The reason is coming crystal clear  
I think I really dig this atmosphere  
It's almost perfect here

If you give in, don't let it freak you out  
'Cause you're the one thing I've got this thing about  
It's this emotion it's got me inside out  
It's got me inside out

Well life hits you and love gets you  
You just gotta go with the flow

Everything is almost perfect here  
The reason is coming crystal clear  
I think I really dig this atmosphere  
It's almost perfect here

It's almost perfect here
