

Vaux, Ride Out Bitch

You can't hold on to the air I'm breathing.
Why can't you just get over it.
And you can not have the sights I'm seeing.
Why can't you just get over it.

We walk the line and then you slip.
The last time, I'm over it.
Walk the line and then you slip.
The last time, I'm over it.

Want it, cause it feels so good.
It's in the way I see it.
Tried to leave it, no one could.
You've been erased, deleted.

This is how our parting sounds.
It's not to be repeated.
The more I look, the less I've found.
All bets are off, you cheated.

I'm gonna ride away.
This masquerade is spent.
Cause all the feelings fade.

You can't fill in for all I've needed.
Why can't you just get over it.
And you do not act the way your treated.
Why can't you just get over it.

We walk the line and then you slip.
The last time, I'm over it.
Walk the line and then you slip.
The last time, I'm over it.

Want it, cause it feels so good.
It's in the way I see it.
Tried to leave it, no one could.
You've been erased, deleted.
