

Veda Hille, Lucklucky

(Lucklucky lucklucky lucky lucky luck...)

There is the place you know
There is the place you don't know
Curtain number 1, curtain number 1
(You are blind, blind, blind)

There's where I did this
There's where I did that
It took thirty years to draw this map
and now what do you see
(You are blind, blind, blind)

The city or your map of the city
(You are blind, blind, blind)
The city or your life in the city

Get up every day
Crawl out of your cave
(You are blind, blind, blind)
Battle with the memories
The wall of you the bears cannot get through
The wall of you the bears cannot get through
The wall of you

You need the air
You need the freedom
You need to pit yourself against the hardship of the world

(Lucklucky lucklucky lucky lucky luck...)

There is the place you know
There is the place you don't know
Curtain number 1, curtain 1
(You are blind, blind, blind)

You've pissed on trees, you've beaten paths
It took thirty years to draw this map
And now what do you see?
(You are blind, blind, blind)
The city or your map of the city?
(You are blind, blind, blind)
The city or your life in the city?

This is where we are
Are you ready
What was, what is, and what shall be
City of destiny
(You are blind, blind, blind)
City of destiny
(You are blind, blind, blind)
City of destiny

Grab your coat and your popular music
