

# Vega 4, Better Life

Something that she said has got me  
dreaming like i'm you  
and i'm buzzed up like a neon red light  
feeling blown out fuse  
now you made me think of  
something new  
before its not too late  
you called me back to realville town  
and now i'm falling out

hey hey hey, it's alright

its alright, we can fly  
we're reaching for a better life  
its alright, the good will come around

you spit me out you made me dream  
you played for keeps again  
now you know that tired and broken  
feeling that i feel gives me hell

and its something that she said has  
got me dreaming like i'm you  
i'm buzzed up like a neon red light  
feeling blown out fuse

hey hey hey, it's alright

its alright, we can fly  
we're reaching for a better life  
its alright, the good will come around

its alright, we can fly  
somewhere there's a better life  
its alright, the good will come around

and if you believe the music will take  
you home again  
love if you believe the music you're home

its alright, we can fly  
somewhere there's a better life  
its alright, the good will come around x2
