

Vega 4, Life Is Beautiful

Life is beautiful
We love until we die

When you run into my arms
We steal a perfect moment
Let the monsters see you smile
Let them see you smile
And do I hold you too tightly
When will the hurt kick in?

Life is beautiful
But it's complicated
We barely make it

We don't need to understand
There are miracles
Miracles

Your life is beautiful
Our hearts they beat and break

When you run away from harm
Will you run back into my arms?
Like you did when you were young
Will you come back to me?
And I will hold you tightly
When the hurting kicks in

Life is beautiful
But it's complicated
We barely make it

We don't need to understand
There are miracles
Miracles

Stand
Where you are
We let all these moments
Pass us by

It's amazing where I'm standing
There's a lot left we can give

This is ours just for a moment
There's a lot left we can give

It's amazing where I'm standing
There's a lot left we can give

This is ours just for a moment
There's a lot left we can give
