

# Vega 4, Summertime

You're the star  
that burned my eyes  
every touch gave me a reason  
all at once we had it all on our bonfire night  
summertime, my head was spinning  
cause you and i had found that feeling  
but in the end, it burned out far too bright

though the sign said 25  
we didn't care that we were speeding  
we crashed the car,  
blew the bag  
no way back

summertime, my head was spinning  
cause you and i had found that feeling  
but in the end, it burned out far too bright

i woke up, you're gone  
just a smell and a tattoo bleeding  
packed your bags, left your coat  
no goodbye

all at once we lost it all  
no goodbye
