

Velocity Girl, Hey You Get Off My Moon

Hey you, get off my moon.
There's not air for two, on my moon.
There's no atmosphere, when your near.

Hey you, leave me alone.
I'm a thousand miles, from the phone.
No one ever calls...

If you'd..
just get out here,
background noise..
would disappear.

Hey you, get off my moon.
You will disappear, much too soon.
