Velvet Acid Christ, Decypher

i look into your mind
i rip apart your soul
i cut into your flesh
decipher the code
dangling from words
that pervert your mind
cleansing your soul
from code you can't hide
scraping bits of flesh
to analyze the truth
decipher the code
and break right through
i see your crimes
and watched you take their souls
you'll always lose
digging through those holes
dangling from words
that pervert your mind
cleansing your soul
from code you can't hide
scraping bits of flesh
to analyze the truth
decipher the code
