

Velvet Acid Christ, Despotic

Pain my friend,
your fucking dead wasted life, puking.
pulled,
a fucking waste,
you fucking pray,
hold you down, down.

I'm pulling out my hair,
falling down,
do you pray,
do you pray for overkill,
dying,
death,
pain,
believe the link was.

You don't fake with your eyes blind folded.
eyes blind folded.
eyes blind folded.

You play,
laughing away,
dead.
falling down.
falling through dreams that die.

Wallow in your pain,
crawl in your eyes,
open mind,
open mind.
dead, dead.

A waste,
you're dead,
you'll die,
in my mind,
mind exploding views.

Never why,
never why,
never cruel,
what do we gore in your head.
slip.
red.
laughed at you,
never mind.
fuck you.
never.
