

# Velvet Acid Christ, Fade Away

no fun, no dreams, no life, no time  
no fun, no dreams, no time, no life  
another day of misfortune  
another day of hating everyone

another day of hatred  
of depression  
on succession  
on the mental breakdown

no fun, no dreams, no life, no time  
just fade away  
no life, no dreams, just another day  
no fun, no life, no dreams, just fade away

life in the mirror  
life in your hands  
life on a broken dysfunctional life  
life, death

life, there on no fucking fantasy  
nothing to dream

just another day here  
no fun, no life, no dreams, no time  
no fun, no, nothing at all

time doesn't hear you  
you're dying away  
no one will understand you  
no one to come and play

no one to stop to hear you  
no one will hear  
listen to what i say  
what you say

i hammer a nail to my face  
and say

mentally backwards  
in dreams that never transformed  
into anything at all

time doesn't hear you  
no life, no fun, no dreams  
no time, no life, no dreams  
just fade away

time doesn't hear you, no time doesn't care  
no fun, no dreams, no life

no fun, no dreams, no life  
no promises, no fucking time  
no life, no dreams, fade away

fade away, fade away
