## Velvet Acid Christ, Fade Away

no fun, no dreams, no life, no time no fun, no dreams, no time, no life another day of misfortune another day of hating everyone

another day of hatred of depression on succession on the mental breakdown

no fun, no dreams, no life, no time just fade away no life, no dreams, just another day no fun, no life, no dreams, just fade away

life in the mirror life in your hands life on a broken dysfunctional life life, death

life, there on no fucking fantasy nothing to dream

just another day here no fun, no life, no dreams, no time no fun, no, nothing at all

time doesn't hear you you're dying away no one will understand you no one to come and play

no one to stop to hear you no one will hear listen to what i say what you say

i hammer a nail to my face and say

mentally backwards in dreams that never transformed into anything at all

time doesn't hear you no life, no fun, no dreams no time, no life, no dreams just fade away

time doesn't hear you, no time doesn't care no fun, no dreams, no life

no fun, no dreams, no life no promises, no fucking time no life, no dreams, fade away

fade away, fade away
