

# Velvet Acid Christ, Futile

assimilate the night  
they cut into your brain  
they crack apart the skull  
and stick the wires in  
the computer relationship  
a flame into the flesh  
a cut into the brain  
a cut runs in your face  
you can't believe your head  
you can't believe your eyes  
nobody can escape  
the futile assesment  
the futile assesment  
oh, futile  
we're futile  
futile  
you're futile  
futile religion  
futile expression  
your futile aggression  
a futile obsession  
oh, futile assasination  
you'll falter  
your generation  
your immoral futile assimilation  
expressionation  
annihilation
