

# Velvet Empire, Ride

Chillin' out from across the room,  
I can read your mind.  
Don't say a word I can see it in your eyes.  
I need a change of scenery,  
Blue skies gonna set us free,  
All I know is you and I should ride.

(chorus:)  
Come with me on a trip to nowhere,  
Take a train, plane, or motorbike.  
Don't care about your bags, we'll leave tonight.  
Don't care about a destination,  
Or the troubles we'll leave behind,  
As long as you're here with me,  
Baby let's ride.

Monday of another season, feels like rain,

Tomorrow knows it'll be like yesterday.  
Getting' tired of the same old faces,  
I been dreaming 'bout the brand new places.  
Let's fade, check out and get away.

(chorus:)  
Follow the highway of your heart,  
Not of your mind.  
And don't waste time.  
Baby let's ride.  
Let's ride. baby come on let's ride.

(chorus: (x3))

Baby let's ride. (x4)
