

# Velvet, In and out love

Is it love, this time  
Oh that I feel for you  
And your love, takes my breath away  
Everytime I think of you  
There's a whole world waiting  
For you and me  
There's a brand new life  
I can make you see  
Let just hold on tight  
to this feelin  
Hey, I'm going out of my mind  
ref: This time we can make It last forever  
(We keep fallin in & out of love)  
This time we can make It happen together  
(We keep fallin in & out of love)  
This time we can make It last forever  
(We keep fallin in & out of love)  
Anyplace, anytime I know We'll  
Make It together  
It's the fire in your eyes  
That keeps me fallin for you  
And Your smile takes me higher  
Baby I'm in love with you  
ref: This time we can make It last forever  
(We keep fallin in & out of love)  
This time we can make It happen together  
(We keep fallin in & out of love)  
This time we can make It last forever  
(We keep fallin in & out of love)  
Anyplace, anytime I know We'll  
Make It together  
Anyplace, anytime we can make It together...  
We can make It...  
Anyplace, anytime we can make it together...
